

The Wispeco Roll of Honour

original

durable

secure

reliable

noiseless

greaseless

automated

innovative

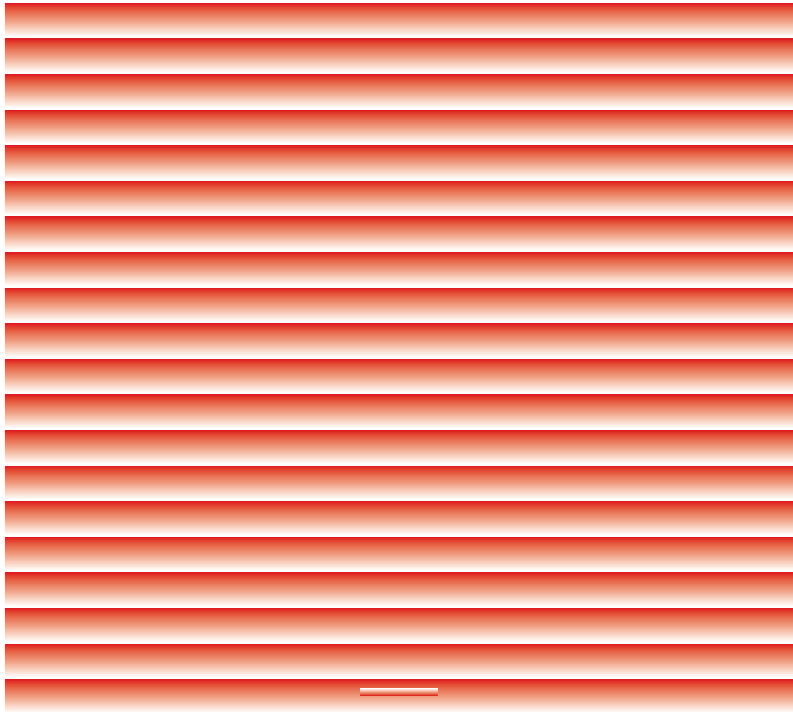

patented

From the day it was first unveiled the Wispeco Roll-A-Door has become an international success story. The simple reason for this is quality. This is the original roll-up door and it contains a number of patented components such as a perfectly balanced drum to ensure easy lifting and Roll-A-Guides for a quiet,

smooth, greaseless operation. Combine this with a tough exterior, secure locking and an attractive finish and it's no wonder our doors are still considered the best quality roll-up doors in the world.

Quality and durability - rolled into one

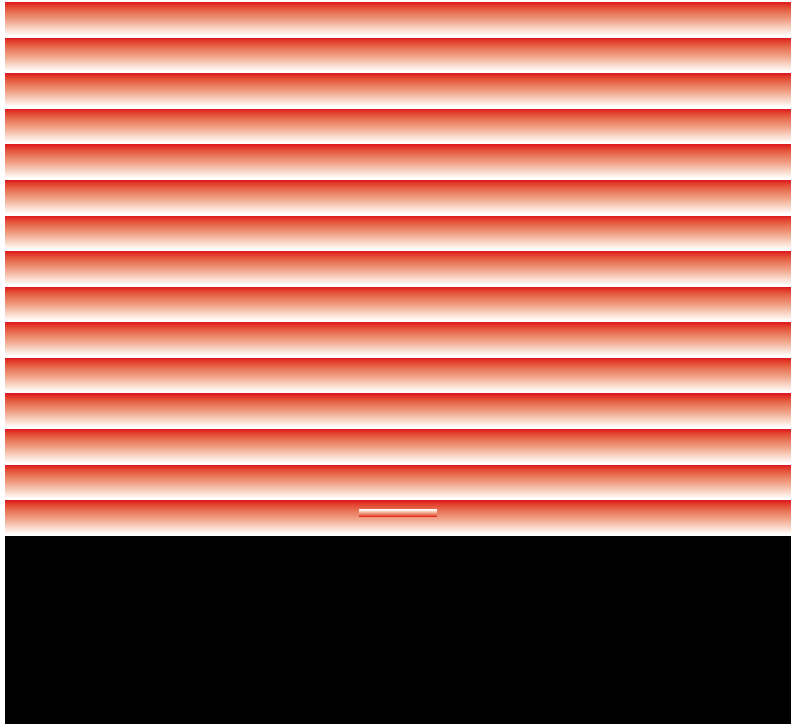

SHOW CRIME THE DOOR

You can't ignore crime these days which is why the Wispeco Roll-A-Door has been designed with security in mind. The pressed steel door has a steel safety door stop and a double locking bar system for extra strength and security. Automate the door and you remain in your car until you are inside the illuminated garage with the

door safely locked behind you. Combine this with incredible durability and a quiet, smooth, greaseless operation and it's no wonder our doors are considered the best quality roll-up doors in the world.

Quality and durability - rolled into one

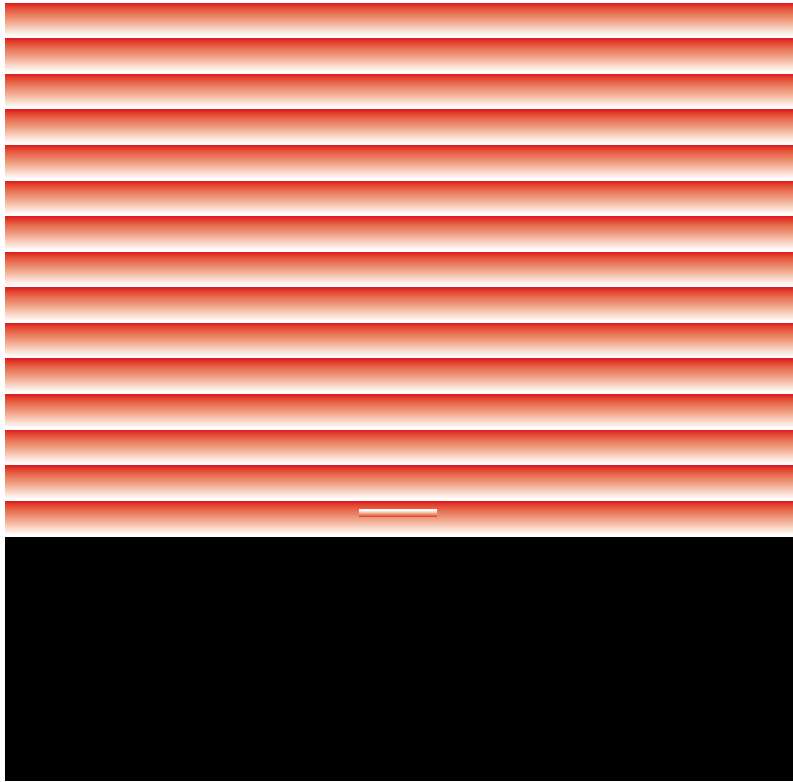

0 to 30 000 in twenty years.

The Wispeco Roll-A-Door's greatest quality is its durability. This door is built to last. In recent tests a door was opened and closed 30 000 times before it needed new springs. That is the equivalent of opening and closing your door 4 times a

day for 20 years! No wonder our doors are still considered the best quality roll-up doors in the world.

SHAKE, rattle OR... ROLL?

The Wispeco Roll-A-Door contains a number of patented components such as a perfectly balanced drum to ensure easy lifting and Roll-A-Guides for a quiet, smooth, greaseless operation every time. Combine this with a tough exterior, secure

locking and an attractive finish and it's no wonder our doors are still considered the best quality roll-up doors in the world.

Quality and durability - rolled into one

A black vinyl record is shown from a top-down perspective, slightly angled. A red label is visible in the center. A rectangular sign with a red and white horizontal striped pattern is placed over the top-left portion of the record. The sign features the text "The Best Of The Doors" in a bold, black, sans-serif font, tilted to match the sign's angle.

The Best Of The Doors

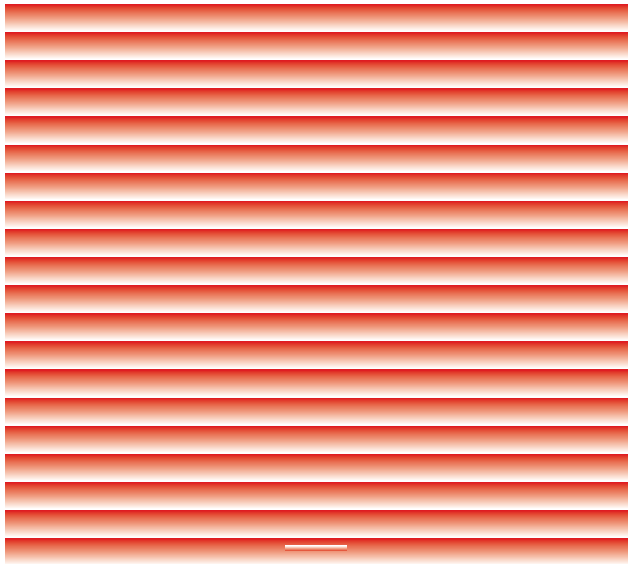

From the day it was first unveiled the Wispeco Roll-A-Door has become an international success story. The simple reason for this is quality. This is the original roll-up door and it contains a number of patented components such as a perfectly balanced drum to ensure easy lifting and Roll-A-Guides for a quiet, smooth, greaseless operation. Combine

this with a tough exterior, secure locking and an attractive finish and it's no wonder our doors are still considered the best quality roll-up doors in the world.

You don't need a course in Windows[®] to open our doors

A single push of a button is all you need. No more worries about the rain or your security. The opener automatically activates a light as the door is opening and the door locks once you are safely inside. You can also have up to five other functions on the same remote control to

operate anything else in the house like gates and alarms. Just one more reason why our doors are considered the best quality roll-up doors in the world.
