

# THE COAL FACTS

**2002**

**2004**

**It's amazing how much things can change in such a short space of time. In just two short years we at Wankie Colliery are proud to announce a 200% increase in production, and an almost 500% increase in profit. What this means to the consumer is that we are now increasingly able to meet their demands with many improvements in areas such as customer service and distribution.**

# THE COAL MINER'S WATER

**You may have heard of that famous Oscar-winning movie  
The Coal Miner's Daughter but how about the Coal Miner's Water?  
Wankie Colliery gets most of its water via a pipeline from the Zambezi  
and as a service to the many communities in the area we have  
organized outlets where people can tap into this pipeline and use the  
water for their everyday use. Wankie Colliery - proudly providing  
so much more than just coal.**

# POWER TO EDUCATE

**At Wankie Colliery we are not just interested in mining for coal. We are also a company that is looking towards the future of our country – and that future has much to do with the education of our children. It is for this reason that we have started a fund to assist schools in a number of needy communities. Wankie Colliery - proudly providing so much more than just coal.**

# ECOLOGICOAL

**At Wankie Colliery we are very aware of the impact an industry such as ours has on the environment – and it is for this reason that we have introduced a number of stringent controls and eco-friendly projects. We are taking from the earth so it seems only fair that we should also be giving something back. Wankie Colliery - proudly providing so much more than just coal.**
